The Piccolo Xpress Clinical Chemistry Analyzer allows laboratory staff to perform routine multi-chemistry panels using only 100µL of whole blood, serum or plasma in as little as 12 minutes. The system uses patented reagent discs that cover up to 16 different chemistry panels, including a comprehensive metabolic panel that measure 14 analytes (electrolytes; liver, kidney and metabolic function tests) simultaneously.

Our “Piccolo Placement Program” is available based on reagent lease or reagent rental agreement with the purchase of Piccolo reagent discs over a term of 36-60 months. Best of all, this program can work in laboratories running less than 10 patient samples per day.

If you would like more information on the Abaxis Piccolo Xpress analyzer, please contact Inter Medico Marketing at (800) 387-9643 Ext. 202 or e-mail: info@inter-medico.com.

** Call for more information and qualify for service and reagent upgrades (including up to a 3 year warranty!!)
